

# Like Nobody Else

RAYE

I'm here, I'm gone, girl you got me good  
I got your love so strong like I knew I would  
And your smile knocks me out like nobody else  
Baby you get me high like nobody else I'm found, I'm home, finally understood  
Got my love so strong like I knew you should  
When you look at me I see nobody else I will try my best, I will give my all, baby  
Trying not to screw this up  
I'll give you everything, I will give my heart, baby  
Just can't seem to get enough  
I will try my best, I will give my all, baby  
I'll give you everything, I will give my heart, baby  
Got my heart in your hands, girl you're all I see  
I'm your girl, I'll be there any day of the week  
It's too good to be true like nobody else  
You're too good to be true like nobody else  
Like nobody else  
Like like like nobody else  
Like nobody else  
Like like like nobody else  
I will try my best, I will give my all, baby  
Trying not to screw this up  
I'll give you everything, I will give my heart, baby  
Just can't seem to get enough  
I will try my best, I will give my all, baby  
I'll give you everything, I will give my heart, baby
