

Welcome To The Tribe

Doro Pesch

You hear it callin'
It's coming tonight on the wind
A love as old as the earth and original sin
If I lay my arms around you
Would you fall apart on me
Close your eyes as I take you
Into the tribe
A lovely night as I take you
Into the tribe
Take my hand take a bite
Take a look in the past
We were one we were here
Through eternity's dance
When I lay this kiss upon you
You will never leave oh no
CHORUS :
