

What Else

Accept

Heroes - keep dying
Nations - dividing
Principles - they're gone
It's war
Wallstreet - buy in politics
Jesus - up for sale
Do anything - for money
I'm a whore
What else - what's in it for me
What else
What else - what's in it for me
What else
Deadlines - headlines
Make me - the biggest star
I don't need personality
Rcause it's war
I'm greedy - I'm deadly
Don't give a fuck anymore
Anything for money
I'm a whore
What else
- what's in it for me
What else
What else
- what's in it for me
What else
What else
- what's in it for me
What else
What else
- what's in it for me
What else
What else
- what's in it for me
What else
