Brainiac

Brainiac

Time holds us for the minute
It drives the risks like Penicillin
Each of these men holds a Pentagram
So recent all the surge they're pushing off the chestWe know we miss one cell
Should've combine to save brains
How 'bout I teach him to crawl
Lift up the head so proud, imagine this one cellHe's gotten through the past, so he can blame few
Stop the chainsaw buzz this passing eyesore
These are the longest days
Sits like a razor, how many found?We know we miss one cell
Should've combine to save brains
How 'bout I teach him to crawl
Lift up the head so proud, imagine this one cellThis defines him
So useless these rules
Tempting timing
I should use the same toolsWe know we miss one cell
Should've combine to save brains
How 'bout I teach him to crawl
Lift up the head so proud, imagine this one cellShould've combine to save brains
How 'bout I teach him to crawl
Lift up the head so proud, imagine this one cell
Imagine this, imagine this, imagine this one
