

I Think I Could Stand You Forever

[Toto](#)

Would you say no if I asked you for your hand
Could you believe in the same words that I don't understand
And would you cry if I told you I must go[Chorus:]I've been waiting such a long, long time, I think I could
stand you forever
I've been wanting you a long, long time, I think I could stand you foreverWould you say no if I asked you for
this one chance
Am I a fool to believe that this night is circumstance
I wish that for once you could see the look in your own eyes
