

# Running

## Delta Spirit

Hold the light my love  
Hold the light my love  
Could you take enough  
Hold the light my love  
You know  
Im done  
And Im doomed  
With a gun against my head  
Gun against my head  
Alone myself I stand  
With a gun against my head  
You know  
Im done  
And Im doomed  
When I come running  
When I come running  
To you  
When I kissed her she fell dead  
Kissed her she fell dead  
Did you hear a word I said  
When I kissed her she was dead  
You know  
Im done  
And Im doomed  
When I come running  
When I come running  
When I come running  
To you  
When I come running  
When I come running  
When I come running  
To you
