Everything Is Burning

Spoken

Everything is burning
Everything is changing
Right before our eyes
And we can't seeHow quickly time is fading away
Don't look so surprised
You knew this day was coming
For so longForget about all your lies
And all your in-decisions
Time is fadingOne day the earth
And sky will burn
And all that we'll be left with
Is the truth of God
And the souls of manFrom the beginning all we knew
Is our days were numbered
And time was slowly fading
From the beginning all we knew
Is our days were numbered
And time was fading awayEverything is burning away
