Shattered Heart

Brandy

Don't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heart

Don't shatter my heartI've been saving up this treasure for years

I hid it somewhere so no one could touch it

With every love I had some reason to leave

No other like it 'cause it's so authenticMany driver couldn't bear her though

Try to break through the gate but didn't have the gut

When I looked in your eyes, I felt a glitch

So I present you with my most precious giftI put my love in a jar

In my heart, like a piggy bank

And I'm giving it to you

So whatever you doDon't shatter my heart, don't shatter my heart

Don't shatter my heartNever knew that love can be so epic

But you save me 'cause you're all heroic

Legend has it that you've earned this throne

Since you came and pulled the sword out the stoneMany driver couldn't weather the storm

You came in my life and turned the lights on

Now when you touch me baby, I can't resist

So I present you with my most precious giftI put my love in a jar

In my heart, like a piggy bank

And I'm giving it to you

So whatever you do

Don't shatter my heartIn a big emergency, don't break the glass, call me

Our love can save anything like the Father, believe me

I'll give you my all 'cause my heart makes me stronger

And if you pour into it I can go even harderI put my love in a jar

In my heart, like a piggy bank

And I'm giving it to you

So whatever you doDon't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heart Don't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heartDon't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heart

Don't shatter my heart, don't shatter my heart Don't shatter my heart, don't shatter my heart Don't shatter my heart
