

Goodbye and Farewell (feat. Ethan Kray)

L.J. Nachsin

L. J. Nachsin " Goodbye and Farewell

So goodbye and farewell my old friend
After all these years we've finally reach the end
I have kept you close, but all good things must pass
And it seems that we must part at last

Yes, goodbye and farewell to you now
For I know that I must take my leave somehow
And there really is not all that much to say
Still it seems that I must leave and go away

Hook:

Though this body of mine must move on
The spirit of our bond will not be gone
Though our time has passed, still some things endure
And the heart of us will always remain pure

So goodbye and farewell my old friend
We have finally reached the rainbow's end
Though I must depart and leave for somewhere new
Still I always will remember you

Instrumental bridge

Hook:

Memories may fade throughout the years
But the best of them remain while the worst ones disappear
The good times can never be erased
Or my feelings for you ever be replaced

So good bye and farewell, old chum, old friend
Don't say "goodbye", say "see you again"
Though I sail away to reach a distant shore
I am sure we'll see each other once more
