Few Against Many

Hell Is For Heroes

Found my resolve
Found my resolve
To stick to my ground
To stick to my ground
To stand up and shout
To stand up and shout
But I just can't make a sound
But I just can't make a sound
Caught by the man
Caught by the man
You tripped out of line
You tripped out of line
You spoke out of turn
You spoke out of turn
But you could not find the words
But you could not find the words
Like a rat in a trap
Like a rat in a trap
I'll be waiting for you
I'll be waiting for you
Taking punches for kicks
Taking punches for kicks
I'll be bait for the kill
I'll be bait for the kill
Was it all in my head
Was it all in my head
Did you know all along
Did you know all along
That it's just you and me
That it's just you and me
We're against the world

We're agianst the world
Dressed up to kill
Dressed up to kill
Been coated in arms
Been coated in arms
With fire in your eyes
With fire in your eyes

Melt me down and suck me in
Melt me down and suck me in
Like a dog to a bone
Like a dog to a bone
Fitted collar and chain
Fitted collar and chain
I will catch what you throw
I will catch what you throw
In the chase I am sane
In the chase I am sane
And it's all that I know
And it's all that I know
And it's all I can take
And it's all that I can take
Till it's time to give up
Till it's time to give up
Raise the candles and blow
Raise the candles and blow
We're up against the world
We're up against the world
We're up against the world
We're up against the world
We're up against the world
We're up against the world
We're up against the world
