

Addicted to the Light

Tonanni

Wanna be a winner?
Face the world and play
Wish upon a star but keep you heart wide-awake You know how to find me
Where the stars are bright
Nobody can stop me, Im addicted to the light I just feel that now is time to move on,
So pack your things lets get the hell out of here Crazy, maybe I just wanna have fun
And show you now that there is nothing to fear Comes a day, that dreams are close, you know the tide is high
Comes a day, so spread your wings and fly (Chorus) Cant you see, that our time has come
So grab my hand you know together were strong We were born to shine, theres no way to hide
Dont be afraid, the stage is where we belong Comes a day, that dreams are close, stand up dont waste your time
Comes a day, so raise your hands and fight (Chorus)
