

Love Songs For Robots (Album Trailer)

Patrick Watson

Breaking down, and days came longer
There's the other class dragons chasing you around
 Sit around on silver just stream on the smoke
 Is rising over your thoughts and your tears
 Watch over you, watch and fall down
 You knock a boulder all over the ground
 You get up, get up
 You get up, you get upSome things let go
 At least for now all these tears past the problems
Stop listen to new words from around as you're 'round
 And all the captives you burn, is burning out
 Watch as the flowers, thrones and winds
 Spills close as a way, spills away
Get up, you get up, get upYou get upYou get up
