

Angel On My Bike

The Wallflowers

She knows just what I like
The Angel on my bike
She found me down on a two ton anchor
Tangled up in wire
She always gets it right
The Angel on my bike
I could be killed if the train goes faster
Well, Angel watch my life
I can't handle a care
I want, but I can't be there
While Angel's a prayer
It's 45 miles on that highway
Angel double prayer
I have to sleep with my eyes on the white lines
Elvis need of repair
And I only wanted to believe
That Angel, it's me that you need
And there's only, only one heart on that highway
Angel double prayer
I can't handle a care
I want, but I can't be there
While Angel's a prayer
I can't handle a care
I want, but I can't be there
While Angel's a prayer
Now it's hard time on these wheels
These fairytales turn to rusted steel
And it's gettin' hard now to believe
She's seein' me, Angel please, tell me can't you see
Angel it's only me, Angel it's only me
Well, I can't take a care
I want, but I can't be there
While Angel's a prayer
I can't handle a care
Well, I want, but I can't be there
While Angel's a prayer
