

# The Love's Still Growing

[Carly Simon](#)

And I'm so high, I can't go on  
Oh but I can sing this song  
Because the love's still growing  
And the love's still growing  
Some folk say that all hope is gone  
But today, the world is one

Because the love's still growing  
And the love's still growing  
It's time to say, it's time to know  
That it's okay, that some must go
