

# Walk On Fire

## RedSea

Ooh, come on!

Out of love, in time I've been shoved down  
Spinning 'round in circles, left me upside down  
Turned my heart to stone, a rock don't bleed  
My heart is a prisoner that can't break free  
You come along with fire and dynamite  
Blew the roof right offa this poor boy's life  
I'm the cat, I howl, strikin' home  
Back in business and I'm not alone  
Baby I know, it's gettin' better even if it's comin' slow  
Maybe this time, I could do anything with you by my side

Chorus:

Walk on, I could walk on fire, face the wind and stayin' true  
Walk on, I could walk on fire, you don't know what I wouldn't do for you

Here's what I'd do

Now I got heart and soul back on the line  
Some think to steal you, huh, they're welcome to try  
I can't say that you are the reason why  
It's a game for two and it's you and I  
Baby I know, it's gettin' better even if it's coming slow  
Maybe this time, I could do anything with you by my side

chorus - yeah

(Solo)

chorus

Walk on, walk on fire (repeats out)

---
