From the Inside

Prime STH

Push it away but it comes back again
You kill your brain but yet it still remains
It found a home underneath your skin
It made a hole so deep withinYou can't get away now
You're down in this hole now
And everything's gone
(It keeps coming from the inside)You can't get away now
You're stuck in this hole nowIt's hard to breathe in this vacuum dream
You float around like in Vaseline
And greedy flies feed on your misery
These parasites just won't let you beCan't get away now
You're down in this hole now
And everything's gone
(It keeps coming from the inside)You can't get away now
You're stuck in this hole now
But still hanging on
(It keeps coming from the inside)You can't bleed your way out
Trying to reach out
But everyone's gone
(It keeps coming from the inside)You can't get away now
You're down in this hole nowIt keeps coming from the inside
It keeps coming from the inside
It keeps coming from the inside
It keeps coming from the insideIt keeps coming from the inside
It keeps coming from the inside
It keeps coming from the inside
It keeps coming from the insideCan't get away now
You're down in this hole now
And everything's gone
(It keeps coming from the inside)You can't get away now
You're stuck in this hole now
But still hanging on
(It keeps coming from the inside)You can't bleed your way out
Trying to reach out
But everyone's gone
(It keeps coming from the inside)You can't get away now
You're down in this hole now
It keeps coming from the inside

From the inside
