Born To Lose

Ufo

Wonder if you belong
Think you've got it down
Does it still feel the same
Now that he's not around?Born to lose, born to lose
Make your mind up, no fooling around
Now that I know
I could never be, I would never be the only oneWonder how it all began
As if that mattered anyway
There's someone else you're always wanting
Every single dayBorn to lose, born to lose
Make your mind up, no fooling around
Now that I know
I could never be, I would never be the only oneBorn to lose, born to lose
Make your mind up, no fooling around
Now that I know
I could never be, I would never be the only one
