

# Born To Lose

Ufo

Wonder if you belong  
Think you've got it down  
Does it still feel the same  
Now that he's not around? Born to lose, born to lose  
Make your mind up, no fooling around  
Now that I know  
I could never be, I would never be the only one Wonder how it all began  
As if that mattered anyway  
There's someone else you're always wanting  
Every single day Born to lose, born to lose  
Make your mind up, no fooling around  
Now that I know  
I could never be, I would never be the only one Born to lose, born to lose  
Make your mind up, no fooling around  
Now that I know  
I could never be, I would never be the only one
