

Black Weakeners

Exit 13

In the name of the Devil you play in the woods
You rely on your image because your music's no good
Nailbats and corpsepaint - the tricks of your trade
So much of black metal is so fucking lame
Wake up black weakeners
Get a clue black weakeners
Piss off black weakeners
Fuck you black weakeners
Church burning and murder then waves of pure hype
as washed up death metallers found a new life
The "evil" you spew is just a flip of the hoax
The only thing true is that your all just sad jokes
Racist black weakeners
Fascist black weakeners
Homophobic black weakeners
Fuck off black weakeners
Unholy black weakeners
Ignorant black weakeners
Talentless black weakeners
Fuck off black weakeners
You claim your a "count" or a "lord" from Hell's pit
From my vantage point your just piles of shit!
Your shock value bigotry is so fucking weak
so go jump a new trend you black metal geeks!
Rot in Hell black weakeners!!!
