

# Make It Tonight

## Wet Wet Wet

He let the world right in  
So let this tale begin  
He spoke it out loud and clear  
Then he shelved another frozen tear  
Then he spoke it out loud and clear  
But the pain got in He always runs behind  
He's only runnin' blind  
From the hurt that  
Your hearts not worth healin' Come on and make it tonight  
Come on, this world's not so bright  
Come on and make it tonight  
Come on and make it tonight  
Come on, this world's not so bright  
Come on and make it tonight He looks at the papers the grooves been jammed  
Looks at the world gettin' off  
On a rhythm that just hits him out of time  
Easy in the mornin', he says it's easier at night  
Keeps his secrets clothed in white  
Wrapped so tight, it's gonna blow his mind He always runs behind  
He's only runnin' blind  
From the hurt that  
Your hearts not worth healin' Come on and make it tonight  
Come on, this world's no so bright  
Come on and make it tonight  
Come on and make it tonight  
Come on, this world's no so bright  
Come on, let's make it tonight, hey, hey, hey I look up every time I feel like looking down  
I look down every time you wear that pretty gown  
I look up every time I look around  
But remember we always said  
It'll be easy on the way Come on and make it tonight  
Come on, this world's not so bright  
Come on and make it tonight  
Come on and make it tonight  
Come on, this world's not so bright  
Come on and make it tonight Come on and make it tonight  
Come on, this world's not so bright  
Come on and make it tonight, hey baby  
Come on and make it tonight

Come on, this world's not so bright  
Come on and make it tonight, heyCome on and make it tonight  
Come on, this world's not so bright  
Come on and make it tonight
