Motorfucker

Crucified Barbara

In so many ways I am a machine
The gasoline, I lick it
If you have a problem, walk with me
I'll start your engine

Running through desert to no man's land
The highway ain't much fun
Days and nights are passing by
And dirt is all I see

[Chorus]
Motorfucker
Is what they're calling me
It's no big deal, I 'll never brake
But I wish they could see me now
On the way to the top speed limit

A roadkill is my only friend
I'm so glad I hit her
Where am I heading, no idea
I'm leaving track behind

In so many ways I am a machine
That gasoline, I lick it
I'm your problem, deal with me
I start your engine

I wish they could see me now
On the way to the top speed limit
Motorfucker
Is what they're calling me
It's no big deal, I'll never brake
Motorfucker
