Are You a Ghost?

B*Witched

It's two in the mornin'
I'll tell you why I'm awake
There it goes, that creepy feelin' again
'Round in my head
Again, here in my headHere in the darkness
There's so many shapes
Shadows burn like faded flames
And die into the night
And fly up so highAre you a ghost or are you alive?
Would you be here for me
Be here for me now?
Imagination or are you for real?
Just give me a sign and I'll knowCool wind is blowin'
Fingers through hair
Standin' in an empty room
Alone it feels like you're there
Alone I know that you're thereAre you a ghost or are you alive?
Would you be here for me
Be here for me now?
Imagination, or are you for real?
Just give me a signI'll tell you what I know
I'll tell you how I feelAre you a ghost or are you alive?
Would you be here for me
Be here for me now?
Imagination or are you for real?
Just give me a sign and I'll knowAre you a ghost or are you alive?
Would you be here for me
Be here for me now?
Imagination, are you for real?
Just give me a sign
