Heaven (Charlie May Remix)

UNKLE

Where's the Seraphim
Where's the money that we made
Where's the open gate
Where's the fortune that we savedHeaven's here for you and me
With every falling curl
Heaven's here for you and me
we gained ourselves the worldHit the Motorway
I can take it all at speed
I got everything
I got everything you need

Scattered out with pearls
Heaven's here for me and you
We gained ourselves the world
