Listen To the Radio

Homeland Quartet

LISTEN TO THE RADIO
Theres a radio station brother that is always on the air
You can get it when the storms are raging Just as good as when its fair
Its a message sent from heaven,nothing else could have compare
And its not any trouble to get it, its wonderful to know its there

Oh listen to the broadcast, of the soundwaves from the sky
Its a well known hometown station, where the soul shall never die
If your set is not receiving, you better get it fixed you know
Just get on your knees my brother, and listen to the radio

If you full of the lords salvation, you can feel it day and night
For it covers his whole creation and it makes your pathway bright
If you ever feel forsaken, And the stormy clouds hang low
Just get your receiver set ready, and listen to the radioâ• â• â• â•
