Sparks

All that would presuppose a power bigger than us baby,
baby, baby start looking at me! I know you've got a left eye
I know you've got a right
But will they be appearing together tonight Profile, Profile
Don't your head include more than a profile Profile, Profile
Don't your head include more than a profile We're always cheek to cheek or cheek to face or face to cheek
but never face to hey, what do you say
Jackie serves to Johnny
Johnny serves to Jack
Jackie serves to Johnny, Johnny serves to Jack Profile, Profile
Don't your head include more than a profile Profile, Profile
Don't your head include more than a profile Profile, Profile, Profile, Profile, ooooooh Profile, Profile, Profile,
Profile, ooooooh Profile, Profile I ain't that fussy that a bit of second best would cause
a sudden little turn in our affair Once you've been ushered in, you ought to face the music
and ignore the guiding hand, surely you can You ain't Whistler's Mother
Or any other art
You ain't seen me lately though we never part
Profile, Profile
Don't your head include more than a profile Profile, Profile
Don't your head include more than a profile
