

# Sinkin' Ship

Jenni Reid

There's a road down the block I know  
That I can't seem to travel to  
There's a light on in the hall that I cannot turn off  
And if I could I know I wouldn't no  
Yeah I may suffer the blows  
But everybody knows that I don't give in  
I don't waste my time I know just what I want  
But when will I get there  
But when will I get there

I'm running circles it seems  
I'm treading on water I'm breathing in like a thief  
Never knowing barely caring  
I am stalked but I am all alone  
I'm frozen in my boots but I'm burning like the sun  
I'm always at the end but I've just begun

And I know it's gonna happen soon  
I'll wake up and I'll find something new  
But when will I get there  
But when will I get there
