

Steppin On My Shoes

Beverley Knight

You, you're steppin on my shoes
Oh yeah yeah
oh oh oh People steppin' on my shoes
People frontin' on my fundamental rules
People steppin' on my shoes
But everything you see is a part of my history "Life without ambition leads you to a no-win situation"
So, I said, in my position, that all my dreams will come to fruition
I fought to stay a winner, but every opportunity grew slimmer
How can I keep my sanity when all the odds are piled against me
I see People steppin' on my shoes
People frontin' on my fundamental rules
People steppin' on my shoes
But everything you see is a part of my history Life ain't so rosy
When circumstance is takin' all your money
The mailbox seems so empty
It's like the world's deigned to just drive me crazy People steppin' on my shoes
People frontin' on my fundamental rules
People steppin' on my shoes
But everything you see is a part of my history People steppin' on my shoes
People frontin' on my fundamental rules
People steppin' on my shoes
oh, but everything you see is a part of my history It's kinda strange - you could arrange your future
A lifetime of making-other-people-plenty-money, y'know
It's suicide to analyse what's goin' on
But if you're willing to take a risk,
maybe you can find the strength to fight it People steppin' on my shoes
People frontin' on my fundamental rules
People steppin' on my shoes
But everything you see is a part of my history People steppin' on my shoes
People frontin' on my fundamental rules
People steppin' on my shoes
But everything you see is a part of my history People steppin' on my shoes
People frontin' on my fundamental rules
People steppin' on my shoes
Frontin' on my rules People steppin' on my shoes
People frontin' on my fundamental rules
People steppin' on my shoes
