

# You're Gonna Love Again (Extended Mix)

## NERVO

Right to the end, right to the end,  
Hearts, run, right to the end, right to the end,  
People come on you don't need to be scared,  
Cause you're gonna love, you're gonna love again,Hearts, run, right to the end,  
People come on you don't need to be scared,  
Cause you're gonna love, you're gonna love againYou're gonna love, you're gonna love, you're gonna love again  
You're gonna love, you're gonna love, you're gonna love againLove againTake a chance of a broken heart,  
cause you're starting again,  
We gotta try even if it's hard, try baby, understand,  
to find a rainbow in every storm, you gotta believe,  
don't ever doubt that you do belong now, cause it's starting with you it's starting with me,Hearts run right to the  
end,  
And you're gonna love, you're gonna love again,And you're gonna love, you're gonna love again,  
Hearts run, right to the end,  
People come on, you don't need to be scared,  
Cause you're gonna love, you're gonna love again,You're gonna love, you're gonna love, you're gonna love  
again,  
You're gonna love, you're gonna love, you're gonna love again,Love again
