

# In the Springtime (Hannah's Song)

Luke Metzler

In the springtime, you tend to cross my mind  
In the springtime, I think about your face  
In the springtime, and it seems to be the case  
That I feel an empty space  
When the snow melts and your memory fades again

In the springtime, you found it hard to walk  
In the springtime, I know it hurts to talk  
In the springtime, but somehow we found the words  
And you dreamed up with the birds  
Cuz your heart never knew when to change

Your memory, is burned in my brain  
I remember you as you were like it was yesterday  
And I know, there's peace, now  
And you tell me to shut my blabberin mouth

But I can't and I won't desist  
Until the world knows that you were loved and you're missed  
Until they know your light  
And how you made me shine  
I know what you're thinking but this here's no waste of time  
To tell them what I know

In the springtime, we got to hear your laugh  
In the springtime, it took me to the path  
In the springtime, and now I've done the math  
And everything I have I love because I loved you

In the springtime, we still were making plans  
In the springtime, you held onto my hands  
In the springtime, and now I know your strength  
Is greater than anything I can or will ever do

Your memory, is burned in my brain  
I remember you as you were

Like it was yesterday

For me, it was causing trouble like any two there ever was  
The house and that tree  
You safely carried on, come sit down next to me

But I can't anymore  
And I'd be lying if I said I knew for sure  
That I'll see you again  
And I'm so damn sorry for all that could've been  
And it's no use now, but sister thanks for teaching me how  
To love through pain

You catch your smile and I'll try to do the same  
I love you more and more  
And I know you say you'd heard this all before

But I can't and I won't desist  
Until the world knows that you were loved and you're missed  
Until they know your light  
And how you made me shine  
I know what you're thinking but this here's no waste of time

Cuz I can't and I won't desist  
Until the world knows that you were loved and you're missed  
Until they know your light  
And how you made me shine  
I know what you're thinking but this here's no waste of time

To tell them what I know  
To tell them what I know
