Big Sean

[Intro: Big Sean (Kanye West)]
God, Oh God
I?ve been working all god damn year
I just got my check
I?m bout to spend it all on me
I?m worth it, yup
Hold up, tell me what you see
Pull up, watch these motherfuckers freak
Say wuddup though when you see me in the streets
(GOOD Music in this bitch now drop that motherfuckin beat)
[Hook: Big Sean (Kanye West)]
Ok, this to all my enemies, that see me gettin? guap right now
See me gettin? guap right, see me gettin? guap right now
This to all my hatin? hoes, that see me gettin? guap right now
See me gettin? guap right now, hell yeah won?t stop right now (Haaaa)
This to all my old hoes, that see me gettin? guap right now
See me gettin? guap right now, hell yeah won?t stop right now (Yaaa)
See me gettin? guap right now, hell na won?t stop right now (Big Sean)
Hell na won?t stop right now, see me gettin? guap right now
[Verse 1]
Ok, I need 50k large
My momma needed a new crib
My daddy need a new car
So I be goin? so hard
Detroit is my yard
I need a 17 car garage
I need a 17 bra manage
I need a jail house to free my dogs
I pay taxes, pay dues, pay bills my whole life
So I?mma throw money in the air, like I?m tryin? to pay the sky
Told myself man if I can?t life like this, I?d rather die
I give it up to God, and he always replies
Control, your hoes, you let her talk to you crazy
You got baby mama drama, you ain?t even got you a baby
You foogazie, boss up, boss up with your time dog
You ain?t got time for no hoes, I ain?t even got time for time off

[Hook]
[Verse 2]

Okay I need 50k large
My homie just beat the charge
My brother need a new job
So I be goin? so hard
I need my face on a black car
My iPhone need the charge
My fish tank need sharks
I need a blimp to say the worlds ours
So these niggas can know
I do what they can
I?m stuntin? for all
The people who ain?t
You still hatin?, you should be fucking ashamed
Far as I came, guess when you?re in the game they want you to spring
Yeah, I know, but I don?t get my stress on
Takin? shots swear is like my stomachs made of teflon
They like boy won?t you get your rest on
Bitch cuz? I?m up for every hour, I was slept on
The last time I dreamt about, two girls bisexual
They was tryin? things, tryin? sexual
Then I woke up in a city, where the population match the death toll
Drew my blueprint, got it illustrated affiliated
Millions chasin? go to sleep wake up continuated
Life of a Don, Sean Don, sippin? never had a palm reader
Always had my palms itchin? time to get it
Boy I was taught to get it till it?s gone
Even when I got it, watch me get it like I don?t
[Hook]
yeaaa
[Outro]
Right Now, Woah, (x6)
Ok, this to all my enemies, that see me gettin? guap right now
See me gettin? guap right now, hell yeah won?t stop rigth now
See me gettin? guap right now, hell na won?t stop right now
Hell na won?t stop right now, see me gettin? guap right now
