

pink skies

LANY

[Verse 1]

Thrift store fashion and perfect tattoos

Taking showers minus shampoo[Pre-Chorus 1]

You are my favorite everything

Been telling girls that since I was 16

Shut up, I love you, you're my best friend[Chorus]

Get you under pink skies, I know exactly where we should go

Cause I love the way your green eyes mix with that malibu indigo

Talking under pink skies, I think our hearts are starting to show

And it's better, you and I, under pink skies[Verse 2]

Underwear i kinda care when I'm looking for you

British bum, you turn me on no matter what you do[Pre-Chorus 2]

You are my favorite everything

Been telling you that since 2015

Shut up, I love you, you're my best friend[Chorus]

Get you under pink skies, I know exactly where we should go

Cause I love the way your green eyes mix with that malibu indigo

Talking under pink skies, I think our hearts are starting to show

And it's better, you and I, under pink skies[Bridge]

We can work it out

You and I are meant to be together

This is how it's supposed to feel I'm in love with how this feels[Chorus]

Get you under pink skies, I know exactly where we should go

Cause I love the way your green eyes mix with that malibu indigo

Talking under pink skies, I think our hearts are starting to show

and it's better, you and I, under pink skies[Chorus]

Get you under pink skies, I know exactly where we should go

Cause I love the way your green eyes mix with that malibu indigo

Talking under pink skies, I think our hearts are starting to show

And it's better, you and I, under pink skies
