

# Honestly

Kelly Clarkson

Could you love somebody like that  
Could you attract someone like that  
Could you go where people can't see someone like me

Could you do that  
[Chorus] Would you face me, make me  
Listen to the truth even if it breaks me

You can judge me, love me  
If you're hating me  
Do it honestly  
All I see are Stepford-like lives  
Needles and knives, beautiful lies  
Bringing out the green in your eyes  
A perfect disguise for envy and pride

[Chorus] Face me, make me  
Listen to the truth even if it breaks me

You can judge me, love me  
If you're hating me  
Do it honestly

[Instrumental]

You can tell me  
You can tell me

You can tell me  
You can tell me  
You can tell me

Face me, make me  
Listen to the truth even if it breaks me  
You can judge me, love me

If you're hating me  
[Chorus] Would you face me, make me  
Listen to the truth even if it breaks me

Judge me, love me  
If you're hating me  
Do it honestly

You can tell me  
You can tell me  
You can tell me

You can tell me  
If you're hating me  
Do it honestly  
You can tell me  
You can tell me  
You can tell me  
You can tell me  
You can
