

# Learning to Fall

## This Beautiful Republic

I've heard it said a million times  
That I should hold on tight to Jesus  
But I took this road so far from Home  
And distance came between us When I walked away  
I knew one day I'd need Your grace So now You'll find me on my knees surrendering  
Cause I know that I'm really not so strong  
And now I'm done fighting for control  
Lord, You can have this life that I've been holding for so long I'm learning to fall  
Let my world crumble You ran so fast to rescue me  
While I was barely breathing  
You picked me up, You touched my face  
And I began to see more clearly Though I'm such a disgrace  
You still forgave and Your love remains So now You'll find me on my knees surrendering  
Cause I know that I'm really not so strong  
And now I'm done fighting for control  
Lord, You can have this life that I've been holding for so long I'm learning to fall  
Let my world crumble Take me as an offering, I surrender everything  
No more living without You  
Take me as an offering, I surrender everything  
No more living without You Take me as an offering, I surrender everything  
No more living without You  
Take me as an offering, I surrender everything  
No more living without You So now You'll find me on my knees surrendering  
Cause I know that I'm really not so strong  
And now I'm done fighting for control  
Lord, You can have this life that I've been holding for so long So now You'll find me on my knees surrendering  
Cause I know that I'm really not so strong  
And now I'm done fighting for control  
Lord, You can have this life that I've been holding for so long I'm learning to fall  
Let my world crumble  
I'm learning to fall  
Let my world crumble
