Slayer

Attitude is my addiction
I live life with no regret
Unlike you, it's my conviction
That sets me apart from the rest I live for competition
Your cynicism only makes me stronger
I am the culmination
Setting the standard that all will follow I live it every day
Don't know another way Within my eyes there's devastation
And fury you can't understand
In my fight, win by attrition
I bring it with all that I fucking am
All that I fucking am You never dealt with such rejection
Licking your wounds that won't fucking heal
You've never seen so much aggression
I am the scream to your fucking silence I live it every day
Don't know another way Attitude is my addiction
I live life with no regret
Unlike you, it's my affliction
That creates the template of all that I am
All that I fucking am You know and I know
No matter what you say
You'll be beaten today
Like every other day Something about you
Keeps you from letting go
Of lame obsessions
Built up inside you Forget the guesswork
You're starting at the source
Gazing into my eyes
You'll see there's no remorse 'Cause this is my war
All day and every day
It's all about the conflict, yeah Bring on the competition
Your pessimism only makes me stronger
I am the culmination
The fucking standard that all will follow I live it everyday
Don't know another way
