I'll Make Everything Alright

Savoy Brown

I just know what is wrong
I can see what is right
If you look into my eyes
I'll make everything alright
I'll make everything alrightI can heal the sick and poor
I bring joy to their plight
When they look into my eyes
I'll make everything alright
I'll make everything alrightI turn the bad into good
I make them do what is right
When they look into my eyes
I'll make everything alright
I'll make everything alrightI really feel for the weak
I can help them in their plight
When they look into my eyes
I'll make everything alright
I'll make everything alright
