Soul Assassination

Afu-Ra

Ten, nine, eight, seven, six, ignition sequence start
Say it, assassin, assassin, one, take it again
Soul Assassins, Afu-Ra, yo, this how we doYou never heard of this, murderous, mic style superb with this
Burn with this, learn with this, you couldn't swerve with this
Or speed up on me in a high speed chase
Shift the clutch and what, bump chumps, I rip it upI'm hangin' corners, type ship like Lamborghini
You couldn't see me, solar rays scorch Houdini
You know my essence, hip hop and energy
Soul assassinate ya, never hate ya
It's deep thought, while you drink my Hennessy
This deep sport, right where the winners beI'm takin' over, sounds glide like genocide
I'm never sober, write my rhymes like a roller
It's so much colder as you bounce into the lunar
Don't be confused a second to get your wreck in
Afu Riggity Ra hit intersectionsDon't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginnersYou can't stop the shiverin', quiverin', while I'm deliverin'
Unique stacks, put wack back, I came to bring
Microcosmic author, comin' forth here, killa
Mess around, you get stuck like Orca niggaFrontin' like you was the boss and illa
Britches got too big, don't make have to walk a sinner
Next day maybe they have to come and chalk a winner
One to tens is straight ate for dinnerI don't devour, straight restricted to my roughage
Bang like Yamaha, hooker to 1200s
Stealth mode, cloak my dagger like a Klingon
Soul assassination, bring it on, yeahDon't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginners
Don't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginnersDon't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginners
Don't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginnersYou catch a mind bleed, eyes bleed, your ears bleed
Your nose bleed, battle wit me, rhymes bleed
My ship is stainless, orbits next your Uranus
As long as you know, train freeze likes of PlutoMy wordplay firm lay, in zero gravity
I be the dentist and you, you be the cavity
Or neurosurgeon, brain work pathogen
From your consumption, first thing is oxygenThrowin' out 4 pages to be box ya in
Lock ya in, rock ya sin, you'll see directions in
Lifestyles, young urban perceptions

Don't seek exception, touchin' all side of the waters
I dominate, accelerate, illuminate
Exuberate and motivate, exasperateDon't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginners
Don't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginnersDon't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginners
Don't make me wanna walk a winner
Walk it iller, stalk a sinner, walk beginners
