Welcome to the Fire

Generationals

Welcome to the fire
Welcome to the frustration
Anytime, come again, anyday
This is how that goes
This is what that turns into
Come along, form a line, anyway
I'll keep it low
I'll tell you anything you want me to know
I'll keep it low
Never talk about that, no
Welcome to the sun
Listen for the shifting sands
We arrive, we adjust, rearrange
Make it to the coast
Make it to the furthest house
Never crawl, never leave, never change
I'll keep it low
I'll tell you anything you want me to know
I'll keep it low
Never talk about that, no
I'll keep it low
I'll tell you anything you want me to know
I'll keep it low
Never talk about that, no
...
