

I Can't Get To You From Here

Don Williams

I'm glad you called me, I still feel your voice
Touch something inside me but I have no choice
But to tell you I'm no longer one of boys
And I can't get to you from here
Now I don't think you'd know me if you saw me up close
I've built me a family and I don't like to boast
But I'm all settled in to what I need the most
And I can't get to you from here
I can't turn back the years
And get crazy again and have nothing to fear
Easy as it might appear
I just can't turn my back and get there from here

I only bet when I've got all the cards
I don't take on all comers when they come on too hard
I'm a daddy and a voter and I go to bed tired
And I can't get to you from here
I can't turn back the years
And get crazy again and have nothing to fear
Easy as it might appear
I just can't turn my back and get there from here
Well I only bet when I've got all the cards
I don't take on all comers when they come on too hard
I'm a daddy and a voter and I go to bed tired
And I can't get to you from here
