Come On

LaFee

Hey you in the Corner
You've been startin at me all Night long
Hey you in the Corner
Can you see I'm out to get me some
Hey you in the Corner
I really really think you're kinda cute
Hey you in the Corner
Time for you to make a moveCome on and get your hot ass over here
Come on and get your hot ass over hereHey you in the Corner
Are you watin for your movement in Time?
Hey you in the Corner
Too bad it might have passed you by
Hey you in the Corner
Say is your ass glued to the wall?
Hey you in the Corner
Come on, Come on, pick up the callCome on and get your hot ass over here
Come on and get your hot ass over here
Come on and get your hot ass over here
Come on and get your hot ass over here
What's all this about?
I want this to go down
Yes I need your ass right here right now
Come over, babyYou're stuck in the Corner
Hey something wrong with you?
You're stuck in the Corner
What else am I suposed to do?
You're stuck in the Corner
Come over baby I don't bite
You're stuck in the Corner
Come on, Come on over babyCome on and get your hot ass over here
Come on and get your hot ass over hereHey you I want you
Hey don't you see it's Time to play
Hey you I want you
Why don't you move
Why don't you come my way?Come on and get your hot ass over here
Come on and get your hot ass over here
Come on and get your hot ass over here
Come on and get your hot ass over here
What's all this about?

I want this to go down
I need your ass right here right now...
Come over, baby
Hey what's all this about?
I want this to go down
Yes I need your ass right here right now
Come over, babyI'm losing interest
I'm quickly losin interestin you
I'm losin interest
Say goodbye to the chance you just blew
I'm losin interest
I'm going home without you now
I'm losin interest
Adios, game over, ciao!
