

Like Snow

Thirsty Merc

Like snow
Like everything I feel
The world keeps turning My hands
My hands are all I see
No path under my feet I'm falling
I'm falling One light
One light in all this time
The world keeps turning
I try
I try my best to see
And it follows me It's calling
It's calling Like snow
Like everything I feel
The world keeps turning My hands
My hands are all I see
No path under my feet I'm falling
I'm falling
