Like Snow

Thirsty Merc

Like snow Like everything I feel The world keeps turningMy hands My hands are all I see No path under my feetI'm falling I'm fallingOne light One light in all this time The world keeps turning I try I try my best to see And it follows meIt's calling It's callingLike snow Like everything I feel The world keeps turningMy hands My hands are all I see No path under my feetI'm falling I'm falling
