Marching

Anael

"Marching"If you only knew
Trouble she's been going through
Could you walk in her shoes
When you ain't got nothing to lose
Say you hope and you pray one day
That you get back what they took awaySo you keep on marching
So you keep on marchingSo when you feel like the sky is falling
And there's nowhere to hide
Tell me, are tired of that crawling?
Then open your eyes
So we go left right left
Left right left (So you keep on marching)
Left right left (So you keep on marching)
Left right leftThey're try to tear you down
But you gotta keep pushing somehow
Baby stand up proud
Don't be just another face in the crowd (Yeah)
No matter what you're going through
There's someone out there just like youSo you keep on marching
So you keep on marchingSo when you feel like the sky is falling
And there's nowhere to hide
Tell me, are tired of that crawling?
Then open your eyes
So we go left right left
Left right left (So you keep on marching)
Left right left (So you keep on marching)
Left right leftHard to cause a miracle
Can't get up just make your move (Yeah)
Don't procrastinate (No no)
Together we will overcome
Marching to a soldier's drum (Ooohh!)So we go step by step
Step by step (So you keep on marching)
Step by step (So you keep on marching)
Left right (So you keep on marching)
Left right (So you keep on marching)
Ooohh!So when you feel like the sky is falling
And there's nowhere to hide
Tell me, are tired of that crawling?
Then open your eyes

So we go left right left
Left right left (So you keep on marching)
Left right left (So you keep on marching)
Left right leftSo when you feel like the sky is falling
And there's nowhere to hide
Tell me, are tired of that crawling?
Then open your eyes
So we go left right left
Left right left (So you keep on marching)
Left right left (So you keep on marching)
Left right left
