We Got Us

Daniel Skye

If the sky falls
If the world ends
If the sun sets and the rivers turn red
If we get lost in the twilight
Somehow I know weâ€™ll be alright
â€˜cause I got you
and you got me
and we got us, yeah we got us, yeah we got, us
Yeah we got trust

I thinkin' about these days everybody playing someone
Yeah we got love
It donâ€™t gotta cost a thing even when the money dries up

We still got it all, we got it made
and thatâ€™s why everybody else is throwing shade
So let the weatherman call for more rain
You donâ€™t gotta be afraid

If the sky falls
If the world ends
If the sun sets and the rivers turn red
If we get lost in the twilight
Somehow I know weâ€™ll be alright
â€˜cause I got you
and you got me
and we got us, yeah we got us, yeah we got, us
yeah we got luck

Go ahead and roll the dice, Iâ€™ll be standing by your side
and weâ€™ll always have enough
Even when it feels like everyday weâ€™re running out of time

We still got it all, we got it made
and thatâ€™s why everybody else is throwing shade
So let the weatherman call for more rain
You donâ€™t gotta be afraid

If the sky falls
If the world ends

If the sun sets and the rivers turn red
If we get lost in the twilight
Somehow I know weâ€™ll be alright
â€˜cause I got you
and you got me
and we got us, yeah we got us, yeah we got, us

When everybody else is running away
I know youâ€™ll be standing next to me
(Itâ€™s a matter of world and grow)[?]
People gonâ€™ come and people gonâ€™ go

But I got you
and you got me
and we got us, yeah we got us, yeah we got us

If the sky falls
If the world ends
If the sun sets and the rivers turn red
If we get lost in the twilight
Somehow I know weâ€™ll be alright
â€˜cause I got you
and you got me
and we got us, yeah we got us, yeah we got, us
