

Life Is Beautiful

Bon Jovi

Try to walk on water
You'll sink just like a stone
Said you'd get home early
But you always stay too long
You got all the answers
But the answers are all wrong I can't save me from my sins
Innocence my long lost friend
No wind no rain can wash away
These hallowed words
My mouth won't pray
You fly you fall
Life is beautiful She's there to lift me up
But I only let her down
A guilty king
Wears a broken crown
She's sweet forgiveness
In a lonesome lost and found I can't save me from my sins
Innocence my long lost friend
No wind no rain can wash away
These hallowed words
My mouth won't pray
You fly you fall
Life is beautiful New gets old
The night gets cold
The sad goodbye
Life is beautiful The sky is cracked
We can't go back
Dry your eyes
Life is beautiful I can't save me from my sins
Innocence my long lost friend
No wind no rain can wash away
These hallowed words
My mouth won't pray New gets old
The night gets cold
The sad goodbye
Life is beautiful The sky is cracked
We can't go back
Dry your eyes
Life is beautiful Life is beautiful
