

On Your Side

Icarus Himself

I found it hard to think of past times.
I've stop trying now because you're on my side
you're on my side

I've found it hard to think of past times.
I've stop trying now because you're on my side
you're on my side

I've seen your heart.
There's no need to hide.
I'll give you time, because I'm on your side
I'm on your side.
I'm on your side.
