

I Gave Her Comfort

Dr. Hook

To think that I'm the kind of guy whoever could have kept her
Would be taking too much credit on myself
And seeing us together you just knew
That she'd look better with somebody else And now she's gone, no one's surprised
Least of all not me
I always knew that I was just a comfort
In her time of need Just a comfort, just a comfort in her time
I gave her comfort in her time of need
Gave her comfort, gave her comfort in her time
I gave her comfort in her time of need You know that we had plans for San Francisco in September
But I didn't see California in her eyes
And by the end of summer, someone made a better offer
You know, I'm not surprised And now she's gone, no one's surprised
Least of all not me
I always knew that I was just a comfort
In her time of need Just a comfort, just a comfort in her time
I gave her comfort in her time of need
Gave her comfort, gave her comfort in her time
I gave her comfort in her time of need Just a quick goodbye
Nobody's crying, no, nobody's crying
I always knew that I was just a comfort
In her time of need And now she's gone, no one's surprised
Least of all not me
I always knew that I was just a comfort
In her time of need Just a comfort, just a comfort in her time
I gave her comfort in her time of need
Gave her comfort, gave her comfort in her time
I gave her comfort in her time of need
