

# Jewel Of The Summertime

## Audioslave

When I was 18 I didn't know pain when the sun was high  
Burnt face, shadow's erased and I knew I'd be alright  
Left that behind me,  
Somethin' blinded me,  
You're reminding me,  
Of a better space and time, miles awayThe jewel of the summertime  
Jewel of the summertime  
Jewel of the summer-time  
A jewel of the summertime  
A jewel of the summertime  
Jewel of the summer-timeWhen I turned 21 I saw the sun pulling out of sight  
All that I met were dark silhouettes stumbling in the night  
Then we collided,  
And I finally,  
Got the light on me,  
Now I'm bathing in the bright ultraviolet raysJewel of the summertime [Repeat: x3]  
A jewel of the summertime  
Jewel of the summertime  
Jewel of the summer-time  
Time, timeI left that behind me,  
But somethin' blinded me,  
You're reminding me,  
Of a better space and time, miles awayJewel of the summertime  
Jewel of the summertime  
A jewel of the summer-time [Repeat: x5]  
Jewel of the summertime  
A jewel of the summer-time  
Jewel of the summertime [Repeat: x3]
