

Lifeline (feat. Dragon, Jontron & Senadee)

BT

In all this time you're there
Behind me
Behind me I got a long way to go and I gotta learn everything
I need a heart that can beat through anything
I need a lifeline, I need a lifeline
Well I'm cold and I need you to see what's happening
If I could change it, well I would do anything
You are my lifeline, you are my lifeline, ooh Behind me Say what you wanna say now
For this is the time for us
I don't tread on your heart
For this is the reason you are I got a long way to go and I gotta learn everything
I need a heart that can beat through anything
I need a lifeline, I need a lifeline
Well I'm cold and I need you to see what's happening
If I could change it, well I would do anything
You are my lifeline, you are my lifeline, yea
[x2] My conscience stepped aside but she's waiting in the back
And she won't come out 'til I've fallen off the tracks
Things she says, nobody else says to me And I've worn myself so down and I'm wondering what to do
A long way out now I need a lifeline soon
But I've got no fear inside of me I got a long way to go and I gotta learn everything
I need a heart that can beat through anything
I need a lifeline, I need a lifeline
Well I'm cold and I need you to see what's happening
If I could change it, well I would do anything
You are my lifeline, you are my lifeline, ooh Ooh ooh
Ohh
Ooh ooh
Ooh lifeline
Lifeline
Lifeline I got a long way to go and I gotta learn everything
I need a heart that can beat through anything
I need a lifeline, I need a lifeline
Well I'm cold and I need you to see what's happening
If I could change it, well I would do anything
You are my lifeline, you are my lifeline, ooh
[x2]
