

# Compass (Club Mix)

## Shift

You're the one I've want  
You're the one I crave  
Even if I tried I couldn't walk away  
In the air I breath  
In the words I speak  
Baby can't you see you're taking over me'Cause when I am with you  
I start to change (I start to change)  
Into who I am supposed to be (to be, to be)(Woah) You've got a love I couldn't resist, resist yeah  
(Woah) You led me to it like a compass, compass  
Straight to your heartWhen I gave into  
Everything you are  
I became brand new  
It's so damn beautiful  
You're worth the risk  
Falling into love  
You're the life I live  
Can't get enough of'Cause when I am with you  
I start to change (I start to change)  
Into who I am supposed to be(Woah) You've got a love I couldn't resist, resist yeah  
(Woah) You led me to it like a compass, compass  
Straight to your heartNorth South East West, straight to your heart  
North South East West  
North South East West, straight to your heart'Cause when I am with you  
I start to change (I start to change)  
Into who I am supposed to be (to be, to be)(Woah) You've got a love I couldn't resist, resist yeah  
(Woah) You led me to it like a compass, compass  
Straight to your heart(Woah) You've got a love I couldn't resist, resist yeah  
(Woah) You led me to it like a compass, compass  
Straight to your heartNorth South East West  
Straight to your heart  
North South East WestNorth South East West  
Straight to your heart  
North South East West  
Straight to your heart
