

# Texas Rose Cafe

## Little Feat

Picked up on my phone in Houston  
Everybody answered, everybody answered but they won't say why  
Then this dancer grabbed me down by the bus stop  
And she said I'm takin' you with me to the Texas Rose cafe  
I got a fast car, it's a jaguar, and I'll get you to the plane on time  
Drinkin' Lone Star, play guitar, we'll have a real good time  
I said love to be found in Austin,  
Love to be found in Austin town,  
I replied that I would try, but you see my time is not my own  
'Cause when I was just a big time low ball fool  
My friend Leroy came to me  
He said look out your window  
Does the first man you see look like me?  
I'm soooooore displeased

Since that time I changed my mind  
About the things I'm up to  
Yet the things around me stay just the same  
'Cause outside my hotel window is a sign that turns from red to green  
It says chop suey and join the U.S. Marines
